

In 1999, PrepMatters began providing free SAT/ACT tutoring to individual For Love of Children (FLOC) high school students. PrepMatters expanded its partnership with FLOC in the spring of 2006, by instituting free weekly SAT/ACT classes to FLOC's Junior Workshop students. Using the PrepMatters curriculum, PrepMatters staff reviewed the basic concepts of geometry and algebra, as well as the mechanics of English grammar; helped students expand their vocabulary; and cleared up the mystery surrounding the new writing section of the SAT. In addition, students were taught the best strategies for tackling the SAT and ACT.

By the end of school year 2006-2007, PrepMatters staff will have worked with 33 Junior Workshop students, provided 40 hours of instruction, proctored nine full-length practice tests, and contributed an in-kind donation of over \$4,000 to FLOC's Educational Guidance & Advocacy program. FLOC is immensely grateful to the management and staff at PrepMatters for all that they have done for our students. FLOC's juniors have not only improved their test scores; they have also developed a renewed self-confidence that will lead to success in college and beyond.

PrepMatters offers a range of services in one-on-one tutoring and educational counseling designed to help students reach their goals. For more information about their services, please visit the PrepMatters Web site at [www.prepmatters.com](http://www.prepmatters.com) or call #301.951.0350.
